## > PUBLIC POWER TENDER PROCESS TO SUPPLY DISTRIBUTION COMPANIES 2017/01

Regarding the public tender process for the supply of energy and capacity to distribution companies that will take place this year ("**2017/01 Tender Process**"), please consider the following:

On December 30, 2016, the National Energy Commission (**CNE**) began the process of creating the *Registry of Interested Institutions and Users* for the submittal of technical observations to the *Preliminary Tender Process Report*.

Every tender process of this kind starts with a Preliminary Tender Process Report.

In order to be part of the registry, interested parties must submit the relevant application, background information and declarations mentioned in Annex I of Exempt Resolution N° 942 *before February 10, 2017*. [Click here](#)

Additionally, on December 12, 2016, CNE approved the text of the *Preliminary Terms and Conditions of the 2017/01 Tender Process*. [Click here](#)

*Although this text is not the final text*, it includes the following useful information:

- 4,200 GWh will be tendered, divided into five supply blocks to supply energy from January 1, 2023, to December 31, 2042.
- The submission of bids will take place on October 11, 2017, and on October 30, 2017 the economic offers will be opened.
- Supply blocks:
