

## CMF OPENS PUBLIC CONSULTATION ON AMENDMENTS TO RULE NO. 514 ON OPEN FINANCE AND INTRODUCES NEW TECHNICAL ANNEX

On July 10, 2025, the Financial Market Commission (CMF) opened a **public consultation** on a regulatory proposal introducing substantial amendments to General Rule No. 514, **which governs the Open Finance System (OFS)**. The proposal includes Technical Annex No. 3 and aims to strengthen the system's technical, operational, and cybersecurity infrastructure.

### Key highlights:

- **Reactivation of suspended participants:** A procedure is established for reinstating suspended entities, subject to a technical report certifying resolution of the incidents that led to the suspension.
- **Alternative information delivery mechanism:** IPIs and IPCs must implement a secondary mechanism to ensure operational continuity if the main interface is unavailable. This mechanism must meet stringent security, traceability, and performance standards and be validated by the CMF.
- **Mandatory sandbox testing:** All system testing must be conducted within the CMF's official Sandbox and validated by an external certifier with expertise in cybersecurity and APIs.
- **Enhancement of the Participant Directory (DP):** The DP is consolidated as the core of interoperability, requiring local maintenance, consultation, and reporting. The regulation defines the API structures needed to publish and update information.
- **Consent regime reform:** Consent is reinforced as a regulatory cornerstone and must be explicit, informed, specific, verifiable, and revocable.
- **Differentiated responsibilities:** PSBIs and PSIPs must verify the validity of consent. IPIs and IPCs are only responsible for technical user authentication.
- **Prohibited practices:** Altering consent content, duplicate authorizations, or user experience interference are prohibited.
- **Mandatory control panel:** Entities must provide an accessible, clear,
