

TIRES: DECREE THAT SETS FORTH GOALS AND OBLIGATIONS ASSOCIATED TO THE EPR LAW IS PUBLISHED IN THE OFFICIAL GAZETTE

On January 20, 2021, [Supreme Decree No. 8/2019](#) of the Ministry of the Environment was published in the Official Gazette, setting forth collection and valorization goals and other associated obligations for tires in order to prevent the generation of such wastes and to promote their reuse, recycling or other types of recovery, in the context of Law 20,920 on Extended Producer Responsibility.

Regulated object: tires

This decree is applicable to tires introduced into the market. For purposes of this decree, tires are defined as, “a toroidal part made of a compound consisting mainly of rubber, natural or synthetic, and other additives, with or without an inner tube, which is usually mounted on the rim of a wheel”.

Collection and valorization goals

The collection and valorization goals are established in a progressive scale per year, distinguishing the tire categories.

Tire with rim less than ...		
Year	Collection goal	Valorization goal
First Calendar Year in fo...	50%	25%
Second Calendar Year i...	50%	30%
Third Calendar Year in f...	50%	35%
Fourth Calendar Year in ...	80%	60%
Fifth Calendar Year in f...	80%	60%
Sixth Calendar Year in f...	80%	80%
Seventh Calendar Year i...	80%	80%
Eighth Calendar Year in ...	90%	90%

Associated obligations for producers and industrial consumers

Decree No. 8/2019 sets forth a series of additional obligations applicable for both tire producers and industrial consumers.

Inspection and sanction

Compliance with the provisions of Decree No. 8/2019 is overseen by the Superintendence of the Environment, which is empowered to impose fines of 10,000 UTA (USD8 millions approx.) in case of infringements.
