Due to the non-renewal of the constitutional state of exception of catastrophe, the health authority modified the Covid-19 regulations. The main changes are mentioned below:

### I. Step-by-step plan modification

On October 1st 2021, Exempt Resolution No. 994 was published in the Official Gazette, which regulates and establishes a new version of the "Step-by-Step Plan".

The main changes of this new version are as follows:

1. Five stages are established (Steps) :
  - a. First step: Restriction
  - b. Second step: Transition
  - c. Third step: Preparation
  - d. Fourth step: Initial Opening
  - e. Fifth step: Advanced Opening
2. None of the steps contains mobility restrictions (territorial quarantines).
3. Maximum capacities are established depending on the Step of the respective locality and the type of activity.
4. The operation of restaurants, cafes, and similar facilities, as well as gymnasiums and similar establishments; cinemas, theaters and similar establishments, as well as premises with attention to the public in general, is permitted from Step 1 - Restriction.
5. Mobility Pass will still grant greater freedoms and capacity distinctions in private meetings and public spaces.
6. The obligation to carry a Sanitary Passport (which can be obtained at [www.c19.cl](http://www.c19.cl)) is limited to interregional transfers by public transportation such as buses, minibuses, trains and airplanes, but is not required for transfers by private transportation. This passport must be required by the transportation service provider as a condition for boarding.

Pursuant to the Ministry of Health's announcement regarding new modifications to the "Protected Borders" plan, we may inform that as of October 1, the borders will be opened for non-resident foreigners (tourists) who have a "Mobility Pass" enabled to enter the country. This pass can be obtained after validating their vaccinations through the website [www.mevacuno.gob.cl](http://www.mevacuno.gob.cl). This procedure can be carried out as of September 16th and can take up to 1 month.

Notwithstanding the above, the entry and exit restrictions for those without an enabled mobility pass are maintained.

The above can be updated in view of the evolution experienced by the Covid-19 outbreak in national territory.

The new sanitary measures are as follows:
