

> Public consultation on infrastructure sharing policy to reduce the digital divide

On January 14, 2025, the Undersecretary of Telecommunications (hereinafter “Subtel”) published Exempt Resolution No. 90/2025, which **“calls for a public consultation on infrastructure sharing policy to reduce the digital divide”**.

This consultation arose after the promulgation of Law No. 21.678, **which recognizes the Internet as a Public Service** and modified some aspects of General Telecommunications Law.

Among the modifications that were made is the inclusion of the **principle of “Infrastructure Sharing”**, for whose application Subtel has initiated a public consultation process that allows an analysis of the current policy regarding this sharing, and with that, **to develop and implement new tools to generate a proposal for a Long-Term Infrastructure Sharing Policy**.

The consultation process is open from January 15, 2025, **until March 20, 2025 at 23:59 hours**.

More information about this public consultation can be found at the [following link](#).
