

The Latin American Corporate Counsel Association (LACCA) 2025:

For the third consecutive year, Carey leads the ranking of Chilean legal advisors for the 100 most important companies in Latam.

- Of the 100 companies included in the ranking, 37 have legal advisors in Chile. Of these, Carey advises 57%, consolidating its position as the leading firm in Chile.

Santiago, April 3, 2025.- Carey was recognized for the third consecutive year as the Chilean law firm that advises the largest number of companies listed in the ranking Who Represents Latin America's Biggest Companies by the publication Latin American Corporate Counsel Association (LACCA), which identifies the legal advisors of the 100 largest companies in Latin America.

Of the total companies that make up the 2025 ranking, 37 have legal advisors in Chile. Of this total, Carey advises 21, positioning the firm as the national leader, maintaining its status as the legal advisor with the greatest presence among the most relevant companies at the regional level.

Compared to the previous year, the total number of companies with a presence in Chile remained the same, although with a different composition. Five companies left the regional ranking due to a drop in their revenues, and two changed their advisory firm. Additionally, three new companies joined, InRetail Peru, Interconexión Eléctrica, and Sigdo Koppers.

Carey's continued prominence in this ranking is due to the sustained work of its teams in various practice areas and the support of its clients.

"This recognition reaffirms our commitment as a firm to provide excellent legal advice, with highly specialized teams that work collaboratively and with a comprehensive approach. In an increasingly dynamic and challenging environment, we have focused on innovating, adapting quickly to market changes, and continuing to invest steadily in the training of our professionals. Being a full-service firm with deep technical knowledge in different industries allows us to support our clients with sophisticated legal solutions tailored to their needs," said Pablo Iacobelli, Managing Partner of Carey.

The LACCA ranking is prepared annually based on information confirmed by the companies themselves and identifies the trusted external advisors of the main Latin American companies, which are selected based on billing and regional presence criteria.

LACCA is a publication of the Law Business Research group, editor of Latin Lawyer, and is aimed at legal departments and corporate legal teams in the region.
